The Improved Financial Condition Abroad Causes Advances in the Stock Market—Money Easy.

Commercial Resume.

Special to the Gazette.

New York, June 12.—Money closed easy at 3 1/2 per cent. The highest rate was 4 and the lowest 2 1/2.

Exchange—Closed steady, posted rates 82 1/2 to 83 1/2.

Silver—85.

Sugar—Raw, steady; 90-test centrifugal, 34c; refined, in good demand and firm; cut and crushed 50; powdered, 45c; granulated, 4 1/2.

Wheat—Options fairly active in early dealings, prices unsettled and weak, but during the afternoon the market was steadied by the buying of a new crop. It was thought the time ripe for recovery from the recent decline. Spot lots, steady.

Wool—In limited demand with prices steady. Spring Texas, 15c; 16c; 17c.

Cotton—Spot, less easier; middlings, 55c; futures, steady.

Coffee—Quiet. Fair Rio cargoes, 20c. Futures, firm and higher.

Hides—Prime, Buenos Ayres, 13 1/2; dry, 10 1/2; 10 1/2.

Stocks—Extremely dull again today, but values were fairly well sustained in most cases. The little strength shown was mainly attributable to the improvement in the financial situation abroad, some London buying and the fact that no further engagements of gold were reported. The market closed in most cases 1/2 higher. However, the 4 1/2 per cent. Treasury note, excepted, and at one time was down 1/2 per cent for some unknown reason. It subsequently recovered most of the decline.

The goods situation has undergone no change.
